

Learn a new puzzle

[illegible]

- 1 Add a line's numbers plus one gap between each. If that makes 15, the line has one way to sit.
- 2 Spare squares: a 9 in a line with 4 spare squares always shades its middle 5.
- 3 Dot the empty squares, then switch between rows and columns.

For grown-ups. Cut off or keep this page aside until the puzzles are done.

Learn · Picture Grids

#1

Start with row 11: 15 plus one gap between each fills all 15 squares, so it has only one way to sit. It's a train!

#2

Start with row 3: its numbers leave 2 spare squares, so the 13 has 11 squares shaded however it sits. It's an owl!

#3

Start with row 1: 15 plus one gap between each fills all 15 squares, so it has only one way to sit. It's a trophy!

#4

Start with column 4: its numbers leave 2 spare squares, so the 11 has 9 squares shaded however it sits. It's a penguin!

#5

Start with column 11: 18 plus one gap between each fills all 18 squares, so it has only one way to sit. It's a chair!

#6

Start with column 6: 15, 2 plus one gap between each fills all 18 squares, so it has only one way to sit. It's a boot!

#7

Start with row 6: its numbers leave 2 spare squares, so the 13 has 11 squares shaded however it sits. It's a cat!

#8

Start with row 7: 15 plus one gap between each fills all 15 squares, so it has only one way to sit. It's an umbrella!

#9

Start with column 7: its numbers leave 2 spare squares, so the 11 has 9 squares shaded however it sits. It's a candle!

#10

Start with column 9: its numbers leave 5 spare squares, so the 11 has 6 squares shaded however it sits. It's a palm tree!
