Tetromino Rooms

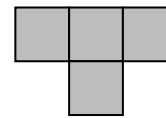

Shade an L, I, T or S in every room.

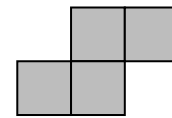

L

I

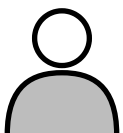

T

S

- 1 Find a room where only one piece fits. Shade it.
- 2 No 2×2 block may be shaded.
- 3 Two of the same letter may not touch across a wall.

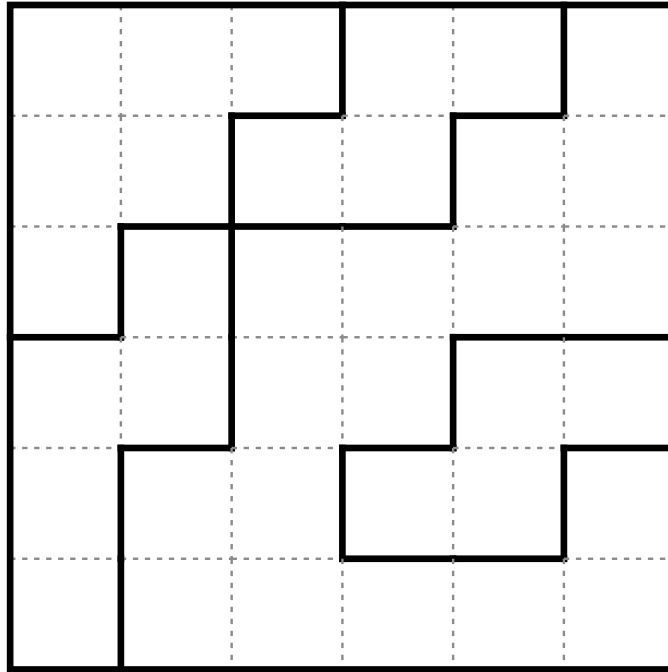

Which room has only one way to fit a piece?

1

Tetromino Rooms

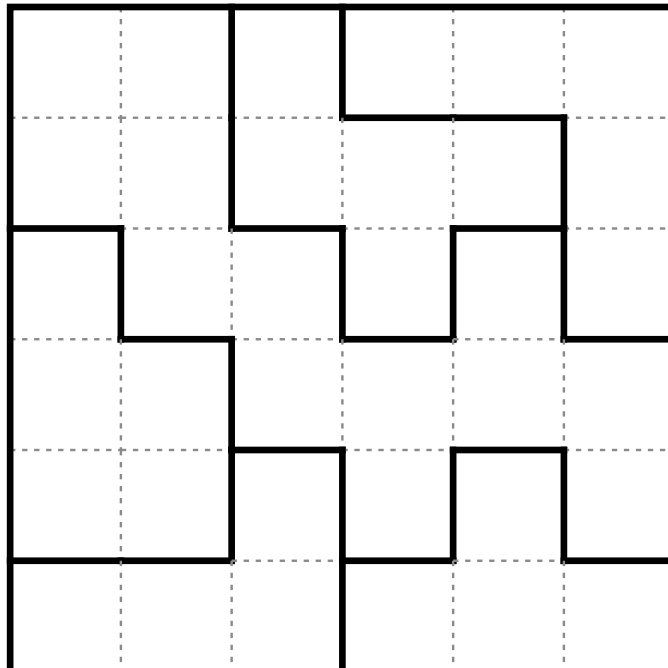

Shade 4 squares in every room to make an L, I, T or S. All shading joins up; no 2×2 block is shaded; the same letter never touches itself across a wall.

2

Tetromino Rooms

Shade 4 squares in every room to make an L, I, T or S. All shading joins up; no 2×2 block is shaded; the same letter never touches itself across a wall.

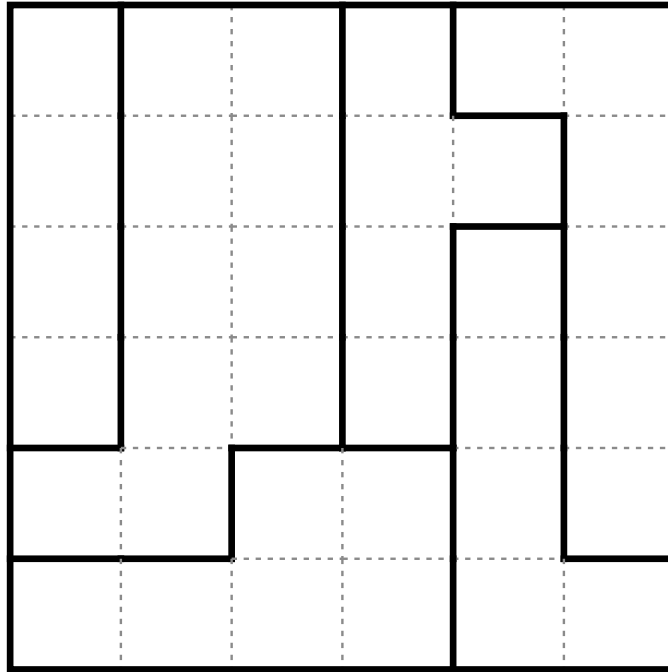

3

Tetromino Rooms

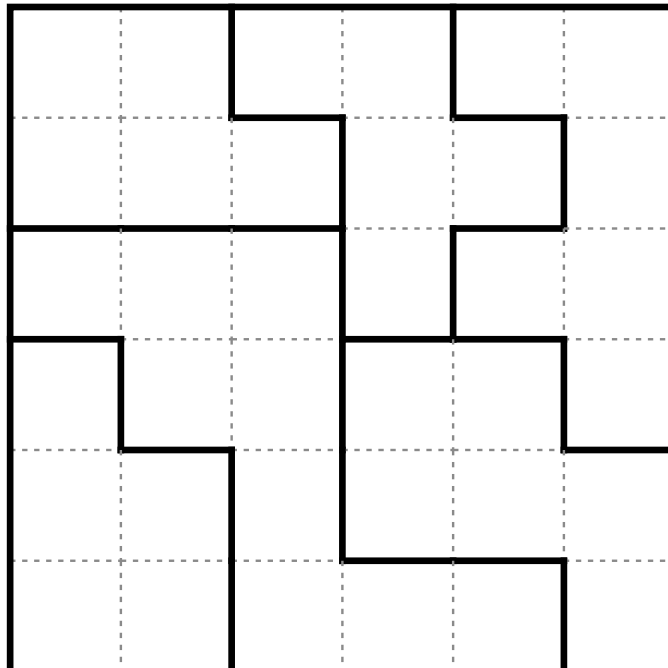

Shade 4 squares in every room to make an L, I, T or S. All shading joins up; no 2×2 block is shaded; the same letter never touches itself across a wall.

4

Tetromino Rooms

Shade 4 squares in every room to make an L, I, T or S. All shading joins up; no 2×2 block is shaded; the same letter never touches itself across a wall.

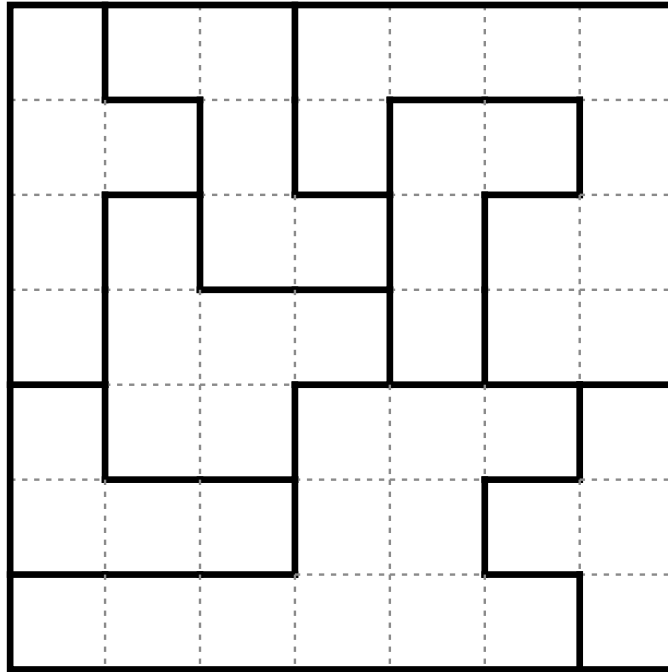

5

Tetromino Rooms

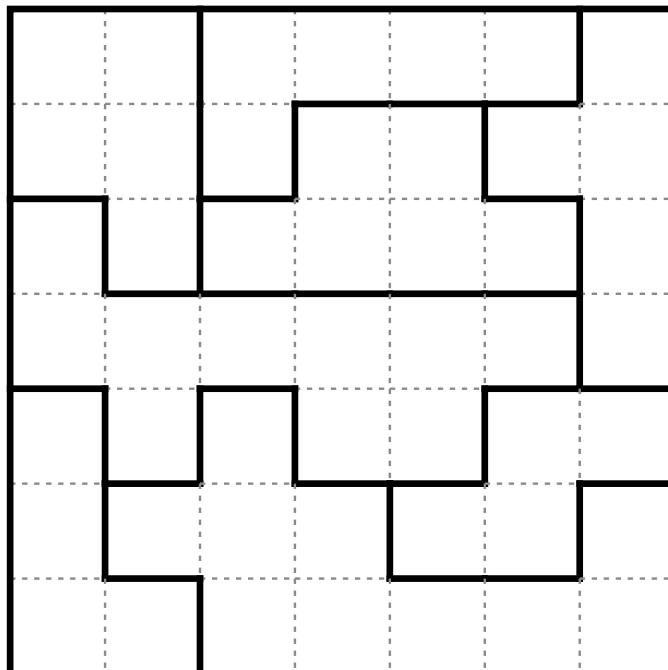

Shade 4 squares in every room to make an L, I, T or S. All shading joins up; no 2×2 block is shaded; the same letter never touches itself across a wall.

6

Tetromino Rooms

Shade 4 squares in every room to make an L, I, T or S. All shading joins up; no 2×2 block is shaded; the same letter never touches itself across a wall.

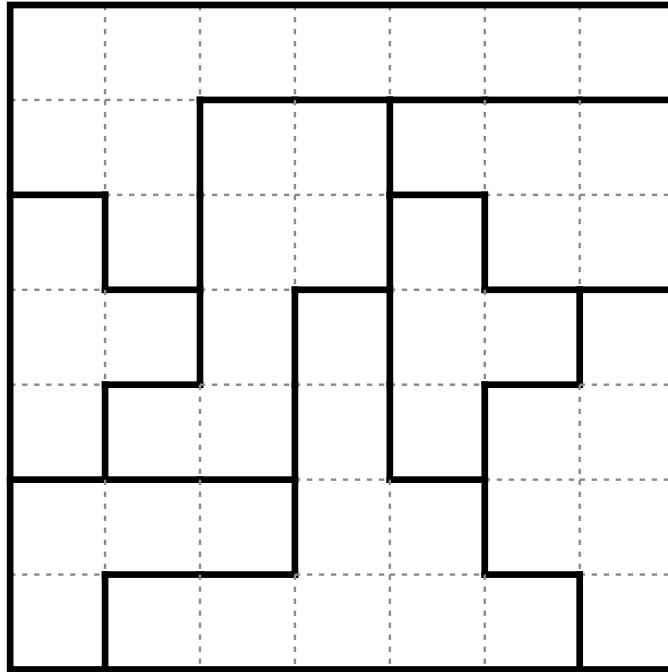

7

Tetromino Rooms

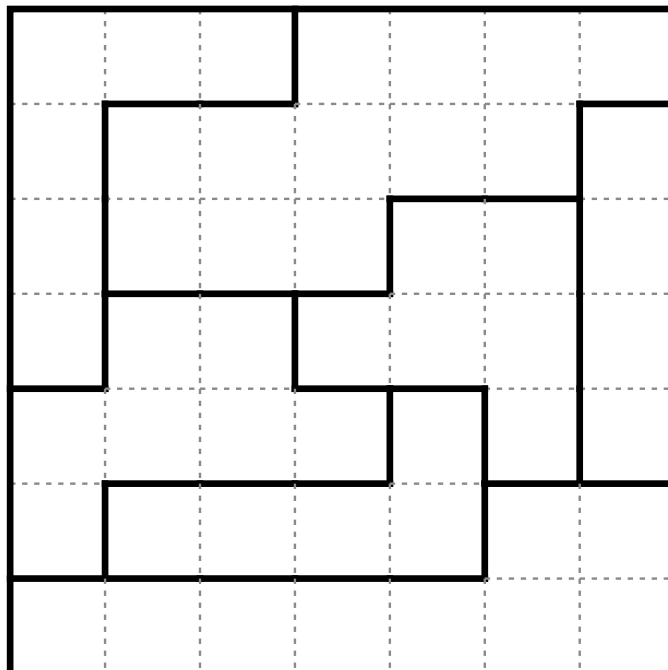

Shade 4 squares in every room to make an L, I, T or S. All shading joins up; no 2×2 block is shaded; the same letter never touches itself across a wall.

8

Tetromino Rooms

Shade 4 squares in every room to make an L, I, T or S. All shading joins up; no 2×2 block is shaded; the same letter never touches itself across a wall.

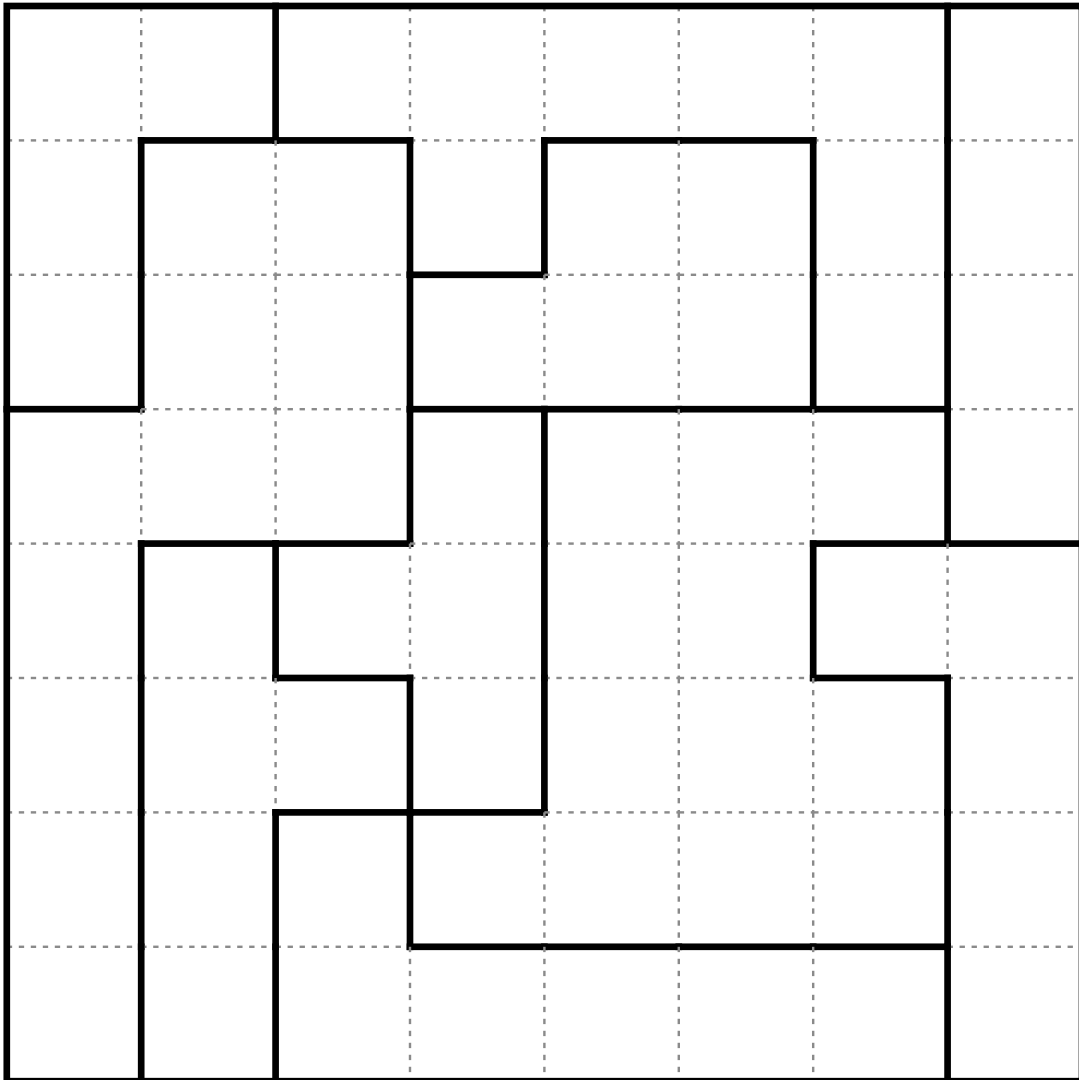

9

Tetromino Rooms

Shade 4 squares in every room to make an L, I, T or S.
All shading joins up; no 2×2 block is shaded; the same letter never touches itself across a wall.

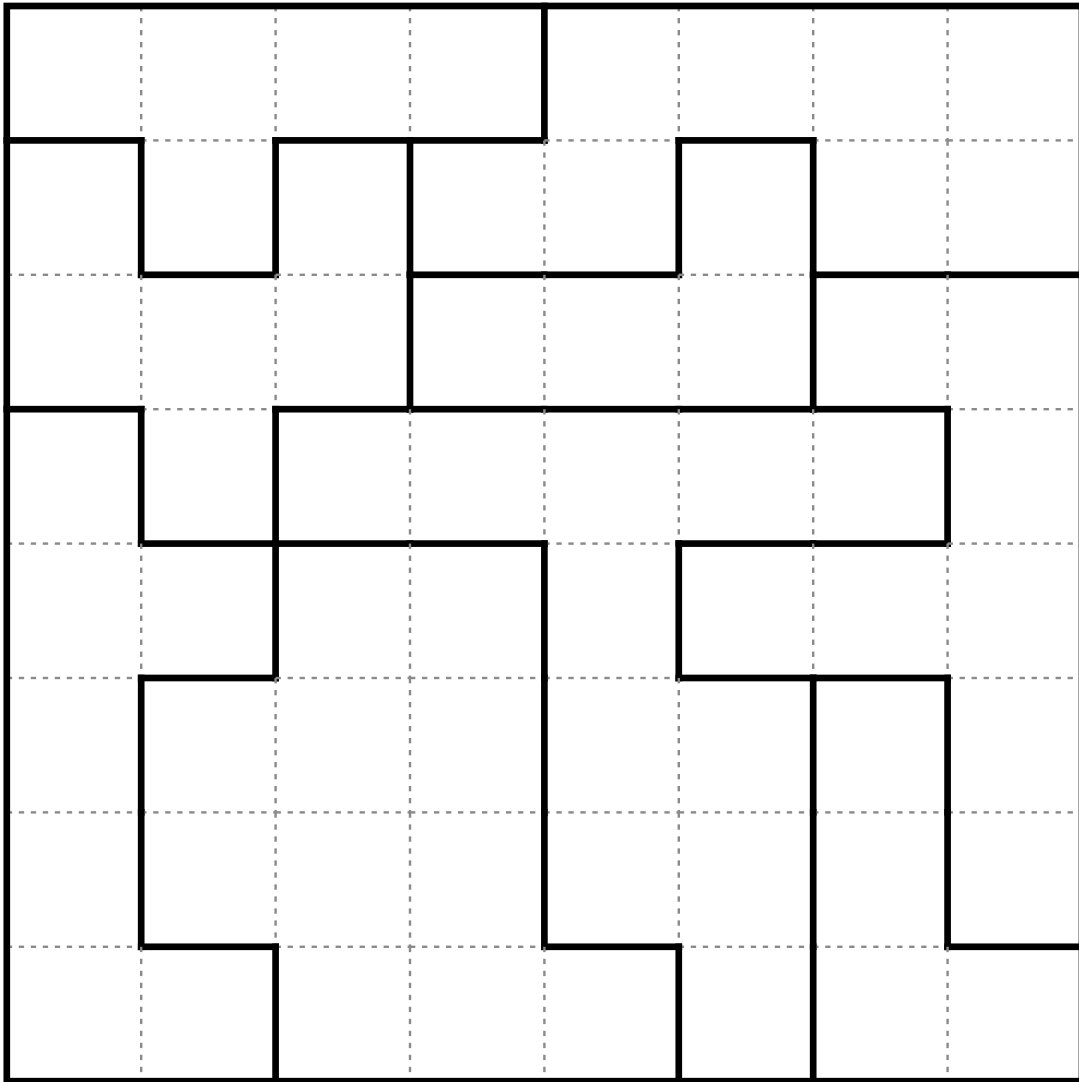

10

Tetromino Rooms

Shade 4 squares in every room to make an L, I, T or S.
All shading joins up; no 2×2 block is shaded; the same letter never touches itself across a wall.

Learn · Tetromino Rooms

#1

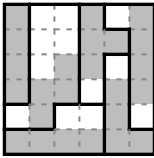

Start with the room whose top-left square is in row 4, column 5: only an S fits there. Then rule pieces out: they would make a shaded 2×2 block, or touch the same letter.

#2

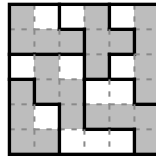

Start with the room whose top-left square is in row 5, column 3: only an L fits there. Then rule pieces out: they would make a shaded 2×2 block, or touch the same letter.

#3

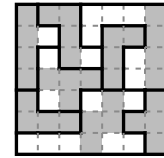

Start with the room whose top-left square is in row 1, column 1: only an I fits there. Then rule pieces out: they would make a shaded 2×2 block, or touch the same letter.

#4

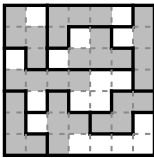

Start with the room whose top-left square is in row 1, column 3: only a T fits there. Then rule pieces out: they would make a shaded 2×2 block, or touch the same letter.

#5

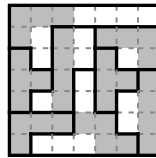

Start with the room whose top-left square is in row 2, column 5: only an L fits there. Then rule pieces out: they would make a shaded 2×2 block, or touch the same letter.

#6

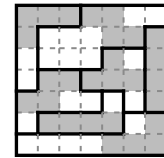

Start with the room whose top-left square is in row 5, column 6: only an S fits there. Then rule pieces out: they would make a shaded 2×2 block, or touch the same letter.

#7

Start with the room whose top-left square is in row 6, column 1: only an L fits there. Then rule pieces out: they would make a shaded 2×2 block, or touch the same letter.

#8

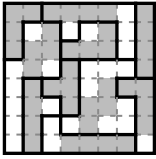

Start with the room whose top-left square is in row 2, column 7: only an I fits there. Then rule pieces out by the 2×2 and same-letter rules; some would also cut the shading in two, so they can't be right.
