Top, Front, Side

Which is the view from the front?

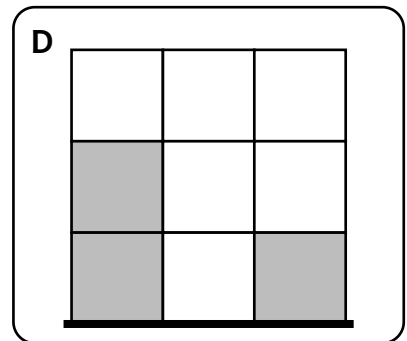

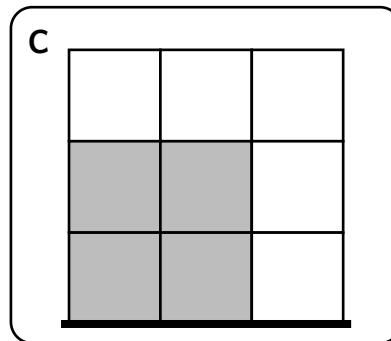

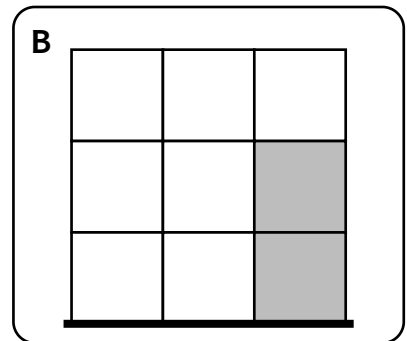

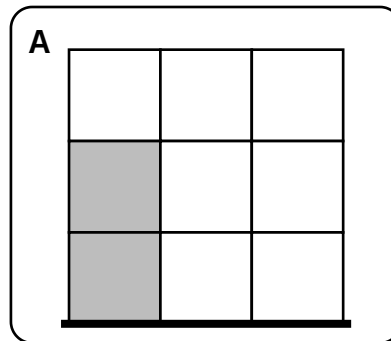

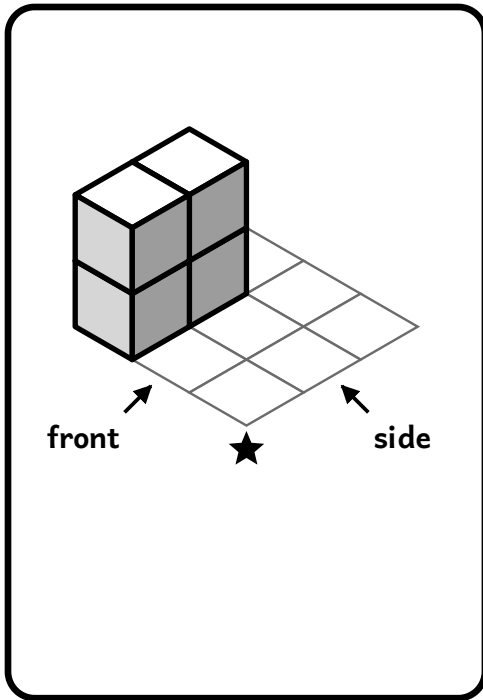

- 1 Look along the 'front' arrow, like standing there.
- 2 Each column is as tall as its tallest stack.
- 3 Blocks behind hide behind the ones in front.

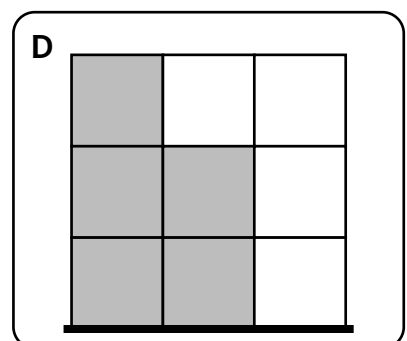

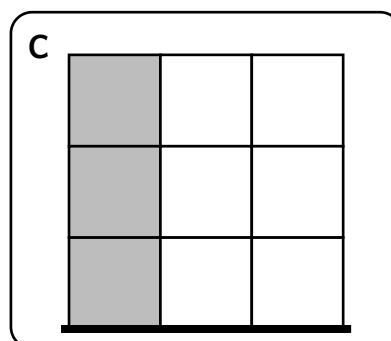

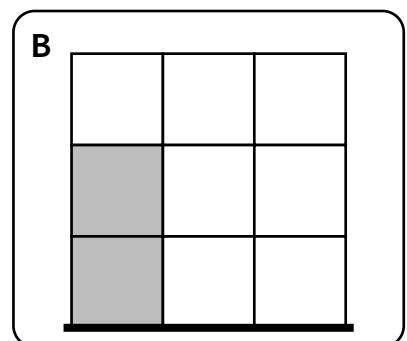

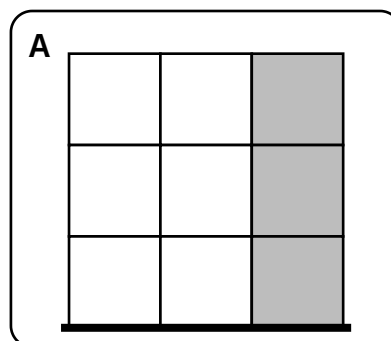

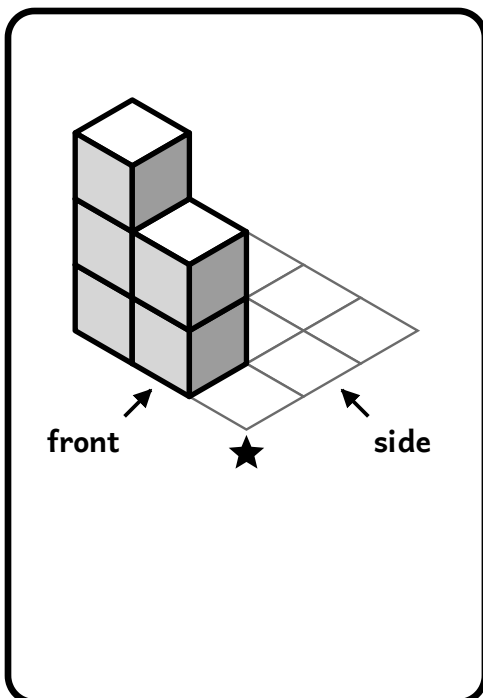

Crouch down at the front. What do you see?

#1

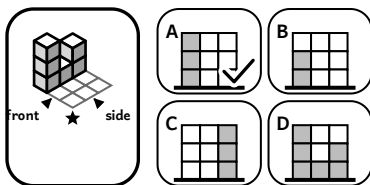

#2

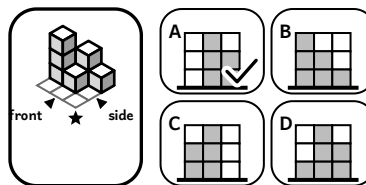

A. Look along the arrow: each column is as tall as its tallest stack. B is the mirror image.

C. Look along the arrow: each column is as tall as its tallest stack. A is the mirror image.

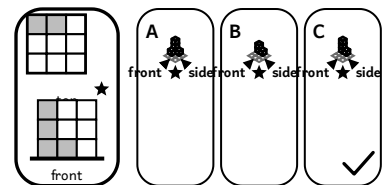

#3

#4

#5

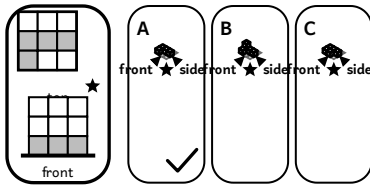

A. Look along the arrow: each column is as tall as its tallest stack. C is the mirror image.

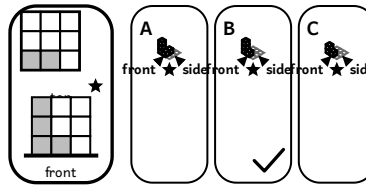

A. Look along the arrow: each column is as tall as its tallest stack. C is the mirror image.

C. The others match only one of the two views.

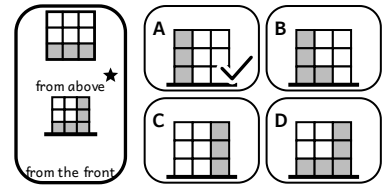

#6

#7

#8

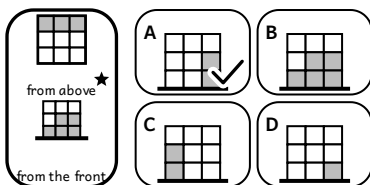

A. The others match only one of the two views.

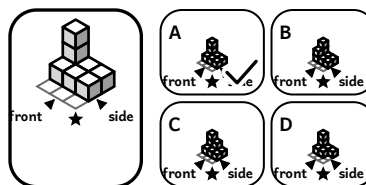

B. The others match only one of the two views.

A. The view from above shows where the stacks stand; the front view shows how tall each column is. Together they fix the tallest stack in each row seen from the side.

#9

#10

A. The view from above shows where the stacks stand; the front view shows how tall each column is. Together they fix the tallest stack in each row seen from the side.

A. Each of the others matches only two of the three views.
