Learn · True, False or Can't Tell

True

#1

False

False: Follow one rule into the next.

#2

True

True: Follow one rule into the next.

#3

False

False: Follow one rule into the next.

#4

True

True: Follow one rule into the next.

#5

True

True: If it were in that place, the rule would make it so. It isn't, so it can't be there.

#6

True

True: If it were in that place, the rule would make it so. It isn't, so it can't be there.

#7

False

False: If it were in that place, the rule would make it so. It isn't, so it can't be there.

#8

a. True, b. False, c. Can't tel

True: Follow one rule into the next.

False: Follow one rule into the next.

Can't tell: Nothing says so either way.

#9

a. True, b. False, c. Can't tel

True: Follow one rule into the next.

False: Follow one rule into the next.

Can't tell: A rule can't run backwards.

#10

b. Zip is not loud.

b makes it True: if Zip were in Room 2, the rules would make it loud. But it is not loud, so it can't be in Room 2. Not

a: being blue doesn't mean it is in

Room 2; Rule 1 only runs one way. Not

c: it is about some of the robots in

Room 2, not about Zip.
